

Why WolfTrack 4.0?

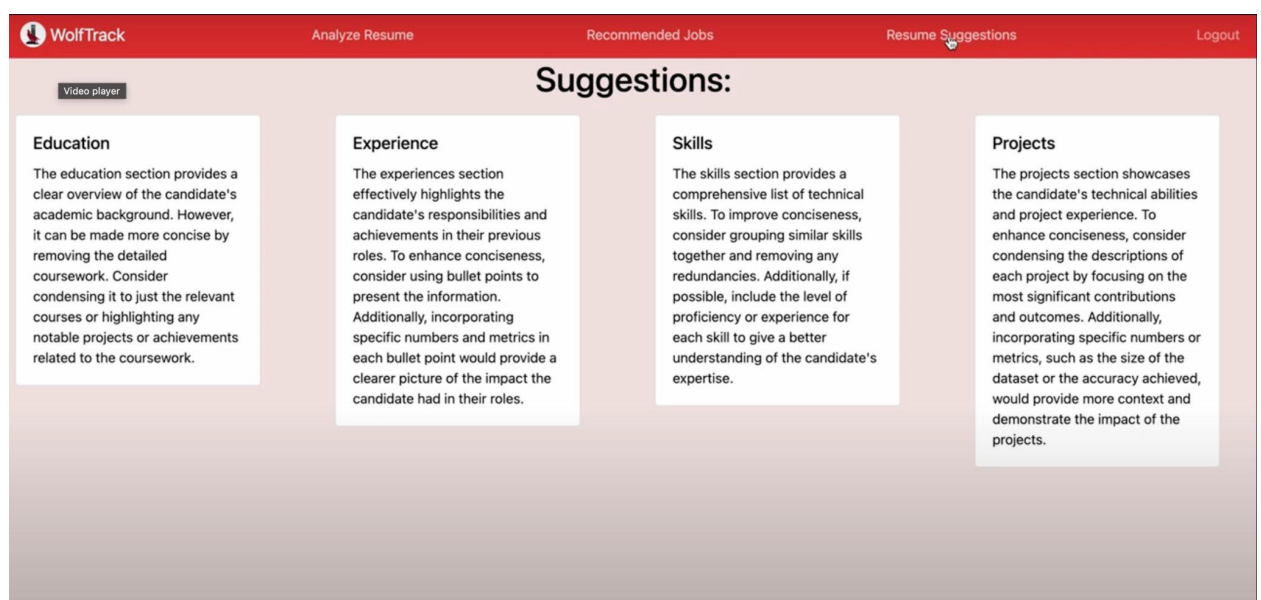

- **Need to check if the job description matches your profile? We got you!**

Wolf Track 4.0 has an **analyze resume** feature that allows you to copy the job description of the targeted company and check the percentage match of how suitable your profile is for that job.

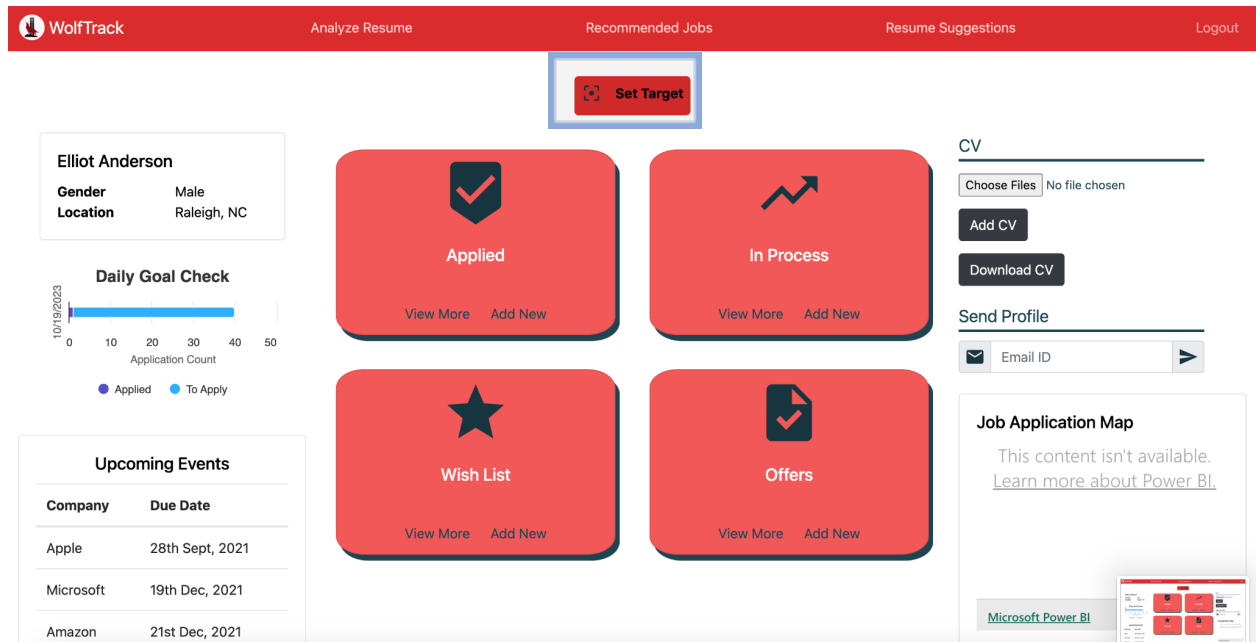

- **Did you ever wish to receive personalized suggestions for improving your resume?**

Wolf Track 4.0 introduces the 'Resume Suggestion' feature, which takes your uploaded resume and passes it through the ChatGPT API. This innovative tool provides tailored recommendations to enhance your resume, helping you stand out to potential employers.

- **Do you have a target in the count of applications to be applied in a day and need the motivation to achieve your daily target?**

WolfTrack 4.0 has a feature Set Target which allows you to set the count of jobs that you are targeting to apply every day. A data visualization is available on the home page that gives a statistic of the number of jobs applied VS the number of jobs to apply to reach the daily target.

- **Need a backup of your latest resume? WolfTrack 4.0 has got you!**

It's okay if you do not have the backup of your latest resume in your email. WolfTrack 3.0 has a download button that downloads the latest resume added to the application.
